

SUMMARY

Result-driven and motivated Backend Developer with a focus on Django, seeking an internship opportunity to apply and further develop skills in web development. With a passion for creating innovative and seamless web experiences, I have successfully completed several projects utilizing Django framework. By combining my technical expertise, passion for coding, and dedication to ongoing learning, I am prepared to make a meaningful impact as a Backend Developer Intern.

SKILLS

Front-end: JavaScript, HTML5, CSS3, Bootstrap5

Back-end: Django, PostgreSQL

Tools & Methods: Git, GitHub, Heroku

EXPERIENCE

Motivated and enthusiast fresher with a strong passion for technology and have keen interest in Python. Actively seeking opportunities to contribute to the success of a dynamic organization by applying my knowledge and skills.

Highlighted Personal Projects

[My Portfolio](#): The portfolio project is my personal portfolio website, including my details, my skills and academic background, previous projects I worked on, and a contact form. This website is completely responsive for mobile and desktop.

- Built with: (HTML, CSS and JS)

[TO DO List App](#): This project is a Django-based TODO list application implemented using class-based views. It provides user-friendly interface with User Registration, Login and CRUD functionality. Additionally, it features a search functionality to easily find specific tasks. ● Built with: (Django, HTML, CSS)

[URL-Shortener](#): This URL shortener application is built using Django, which allows to create shortened URLs for long links, making them easier to manage and share which will redirect to original long link.

- Built with: (Django, HTML, CSS)
